### 9.1.5.1 Requirements.

Legislation relating to the use of fixed & portable (including mobile) workplace equipment requires that the STRPS must:

- Select the equipment properly.
- Use the equipment in a way that ensures it is safe for the health and safety of STRPS volunteers, as well as others (eg the public and contractors) who may be affected by the way it is used.
- Equipment use must be risk assessed.
- Follow equipment manufacturer's recommendations for use and maintenance.
- Ensure that STRPS staff & volunteers are trained and competent in the use of the equipment in question and this is recorded in a competency register.
- Ensure new work equipment complies with the relevant legal requirements for safe design and construction.
- STRPS staff and volunteers must not use, or be permitted to use, unsafe work equipment.

### 9.1.5.2 Arrangements.

- All work equipment, including electrical equipment, used throughout the STRPS's operations will comply with the Provision and Use of Work Equipment Regulations (PUWER) and associated legislation.
- Before any new work equipment is operated, a PUWER risk assessment will be undertaken by the DOM / Responsible Person / Head of Safety or other suitably qualified person to ensure the equipment is suitable and safe for its intended use.
- Existing fixed work equipment should have a PUWER risk assessment undertaken by the DOM / Responsible Person / Head of Safety.
- PUWER risk assessments and any resulting written safe systems of work will be reviewed as necessary to ensure the safe operation of any fixed work equipment.
- All STRPS members of staff and volunteers should receive training in the safe systems of work required to operate work equipment.
- No STRPS member of staff or volunteer will use work equipment where they have not received specific training and achieved adequate competency.
- No STRPS volunteer (or approved contractor) should knowingly misuse any piece of work equipment or remove any guards or safety devices unless in the course of properly conducted maintenance activities.
- All work equipment will be inspected and maintained at suitable intervals to maintain its safety and efficiency.
